Home Assignment-2		
Semester: 3rd BE-2024	**GIE-203**	**Digital Mapping and Image Processing**
Time Allowed: 1 week		**Marks/ Score: 10**

CLO-1	Domain	PLO
Describe different pre-processing methods of spatial and spectral enhancement to improve interpretation of satellite images.	Cognitive	1

Topic: Use of Vegetation Indices for Mapping Green Vegetative Cover

Q1. You have to map and temporally monitor Rice crop form very early stage of it growth till the maturity. Which satellite imagery, time/season and vegetation index / indices you would prefer to use and why, explain very briefly?

Q2. Study literature and find out some built-up area/ bare soil indices? Which bands and how these have been used in the index?

Q3. We discussed a few two bands based vegetation indices, check the literature and write a few vegetation indices which incorporates three bands.

Due Date: Friday 17 October 2025
